4. Growing Climbers	2
5. Garden Climbers for Partial Shade	3
6. Garden Climbers for Indoor Decoration	4

## **Garden Climbers: An Introduction**

Climbers and Twiners are weak-stemmed plants with trailing stems. Staking or a support system is strongly recommended for garden climbers. Regular watering, weeding and hoeing are recommended for raising healthy climbers. There are two types of garden climbers: evergreen climbers and deciduous climbers .

### **Evergreen Climbers vs. Deciduous Climbers**

1. Evergreen climbers , as the name suggests, are evergreen whereas Deciduous climbers shed their leaves annually
2. Evergreen climbers may be planted soon after the rains whereas Deciduous climbers are generally planted during early summers

### **Popular Garden Climbers**

- *Adenocalymma alliaceum*(Begoniaceae)
- *Antigonon leptops*(Polygonaceae)
- *Aristolochia grandiflora*(Aristolochiaceae)
- *Bauhinia vahlii*(Leguminosae)
- *Beaumontia grandiflora* (Apocynaceae)
- *Bougainvillea* sp. (Nyctaginaceae)
- *Campsis grandiflora*(Begoniaece)
- *Climatis panniculata* (Ranunculaceae)
- *Clerodendron splendens*(verbenaceae)
- *Clitoria ternatea*(Leguminosae)

- *Hiptage benghalensis*(malpighiaceae)
- *Ipomia cairica* syn *Ipomia palmata*(convolvulaceae)
- *Jasminum grandiflorum*(Oleaceae)
- *Jasminum humile*(Oleaceae)
- *Porana paniculata*(Convolvulaceae)
- *Quisqualis indica*(Combretaceae)
- *Thunbergia grandiflora*(Acanthaceae)
- *Trachelospermum Jasminoides*(Apocynaceae)

### Popular Garden Climbers

Bougainvillea is a popular climber among the gardeners and it is used as a pot plant as well as a hedge plant. Garden climbers like pothos, monstera, philodendron, asparagus, and trailing nasturtium are popular for indoor gardening and interior decoration.

### Growing Climbers

Soil: Climbers may be planted in any garden soil

Raising Seedlings: Both pot planting and field planting are practiced for raising garden climbers. In case of pot planting, generally pots of 60x60x60 cm size are used.

Garden Climbers For Sunny Situation

1. *Pyropstegia venusta*
2. *Quisqualis indica*
3. *Antigonon leptops*
4. *Adenocalymma alliaceum*
5. *Bougainvillea* sp.
6. *Campsis grandiflora*

## **Garden Climbers For Partial Shade**

1. Clerodendron
2. Petreavolubilis
3. Lonicera japonica
4. Trachalospermum jasminoides

## **Heavy-Growing Garden Climbers**

1. Bougainvillea sp.
2. Quisqualis indica
3. Pyrostegia venusta
4. Clerodendron Splendens

## **Light-Growing Garden Climbers**

1. Trachelospermum jasmenoides
2. Clitoria ternatea

## **Garden Climbers For Fragrant Flowers**

1. Jasminum grandiflorum
2. Jasminum officinale
3. Trachelospermum jasminoides

## **Garden Climbers For Pots**

1. Bougainvillea
2. Clitoria ternatea

## **Garden Climbers for Making Hedge**

1. Clerodendron inerme
2. Bougainvillea

## **Garden Climbers for Indoor Decoration**

1. Asparagus
2. Money plant
3. Zebrina

## **Garden Climbers for Screening Purposes**

Pyrostegia venusta is considered as the best garden climber suitable for screening purposes.

## **Annual Garden Climbers**

1. Sweet pea
2. Trailing nasturtium
3. Clitoria ternatea
